Re: Washington Street, Hoboken NJ Revitalization Project

Dear Mayor Zimmer,

As a Hoboken resident, Hoboken Parent and President of the Hoboken Board of Education the safety of pedestrians and cyclists is extremely important to me. We need ways to encourage “non-vehicle” modes of transportation, walking and cycling. I am 100% in support of your efforts to revitalize Washington Street. From the many intended improvements, the most important and highly needed are:

- ***Modern Traffic Signals with pedestrian countdown times at each intersection***
- ***High visibility crosswalks for improved pedestrian safety***
- ***Two – way protected bike lanes***
- ***Improved Lighting***

Revitalizing Washington Street will go a long way to beautifying our city and improving it's infrastructure, two additional benefits beyond safety.

Thank you for your efforts in improving Hoboken to the benefit of all Hoboken Residents.

Kind regards,

Ruthy Tyroler
Hoboken Resident
President, Hoboken Board of Education
