May 22, 2015

Dear Mayor Zimmer:

As Interim Superintendent of Schools I am 100% in support of Hoboken's efforts to revitalize Washington Street. It is the most heavily used thoroughfare for pedestrians and cyclists, including many of the students in my charge. From among the many improvements that are intended, arise several that are very important to me:

- Modern traffic signals with pedestrian countdown times at each intersection
- High visibility crosswalks for improved pedestrian safety
- Two-way protected bike lanes
- Improved lighting

The revitalization plan is comprehensive and needed. The plan will go a long way in both solidifying and beautifying our City's infrastructure and, more importantly, improve safety for all.

Sincerely,

Dr. Richard Brockel
Interim Superintendent of Schools
Hoboken School District
