

May 20, 2015

Honorable Mayor Dawn Zimmer
94 Washington Street
Hoboken, NJ 07030

Dear Mayor Zimmer,

I am writing to express my support for Hoboken's application to receive a US Department of Transportation TIGER Grant. The innovative project that you and your team have proposed will improve not only the transportation infrastructure of Hoboken, but also the health and safety of the people in it.

The application that you are submitting makes significant improvements in pedestrian safety, ADA accessibility, and increases bicycle accessibility. The water and sewer upgrades along with fiber optic cable and microgrid wiring will allow institutions like ours who serve the public to continue to deploy advanced technology and upgrade our own infrastructure. This infrastructure allows CarePoint Health Hoboken University Medical Center to continue the tradition of caring for Hoboken's residents and ensure that they have access to the most advanced, affordable and efficient care where they need it most; close to home.

We wish to convey our unqualified support for this project.

Respectfully,

A handwritten signature in blue ink that reads 'Dennis I. Kelly'.

Dennis I. Kelly
Chief Executive Officer
